(Hong Kong, July 4, 2024) This year's annual *SummerFest@Central* event will showcase for the first time five giant *Inflatable Wonders* designed by generative AI technology. These huge installations will surely become must-visit landmarks along the Central Harbourfront.

Drawing on the excitement of the upcoming Paris Olympics, the *Fun Sports Gala* series of events will also take place during *SummerFest@Central*. Visitors can join fun runs between the Central and Wan Chai harbourfronts as well as try their hand at a number of newly emerging ball game sports, all of which are set to create a vibrant atmosphere in Central.

Beyond the sports activities, *SummerFest@Central* will also host an impressive line-up of over 25 pop-up events spanning culture, music, and various other themes. These jam-packed events are sure to attract both locals and visitors, making this year's summer even more exciting in Hong Kong.

Organised by Central Venue Management (CVM), the exclusive operator and manager of the 30,000 sq. m. Central Harbourfront Event Space, this year's 8th edition of *Summerfest* runs for 38 days from July 5 to August 11. All events are free admission. The organiser expects that it would attract around a hundred thousand visitors.

Inspired by renowned AI artist [@joooo.ann](#) from Armenia, a major attraction of *Summerfest* will be five large-scale *World Wonders*, including the *Stonehenge* in the UK, the *Easter Island Moai* in Chile, the *Pyramids of Giza* in Egypt, the *Tower of Pisa* in Italy, and the *Arc de Triomphe* in France. The brainchild of [@joooo.ann](#)'s highly imaginative concepts and application of innovative generative AI technology, these all-white inflatable installations are designed to truly captivate visitors, with the tallest work soaring over 13 metres. At night, the installations will be illuminated with colourful lighting effect, showcasing the contrast of their beautiful day and evening aesthetics, a definite 'cannot-miss' attraction.
